

## CLOSED EXPANSION TANK Unpressurised

### FEATURES

- Carbon steel shell
- Interchangeable synthetic rubber membrane
- Built-in coalescence air separator
- Auto air-vent with air ingress preventer

### BENEFITS

- Prevents interface between air and water
- Removes dissolved air and microbubbles
- Reduces corrosion in piping and sludge formation

### TECHNICAL DATA

#### Material

Shell	:	Carbon Steel
Membrane	:	Synthetic Rubber
Max. operating pressure	:	6 Bar
Working temperature	:	0°C-70°C

## INSTALLATION AND COMMISSIONING

Please refer to "Installation & Commissioning Manual for Pump Based Pressurisation System".

### DIMENSIONS

MODEL	Capacity Liters	H	h	ØD	Approx. Weight Kgs. (empty)
